From the Editor's desk:

We had great models and great attendance at our July meeting. The room was hot but in no way comfortable. Our raffle has rebounded remarkably. Thanks to all our contributing members.

Bill Walch is accumulating shirt sizes from all of our members. Please send your size to me or Bill as soon as you can.

Let me remind you that our club contest in September features biplanes.

One more thing, you all know that it is difficult to hear anything in the gym, especially when there's a large fan blasting away. Could you all please give me some kind of note describing your show- and- tell entry? Sometimes you just don't get the credit you deserve because I didn't hear what you said.

Dave Currier built this old Revell kit of a P-47D in 1/48th scale.

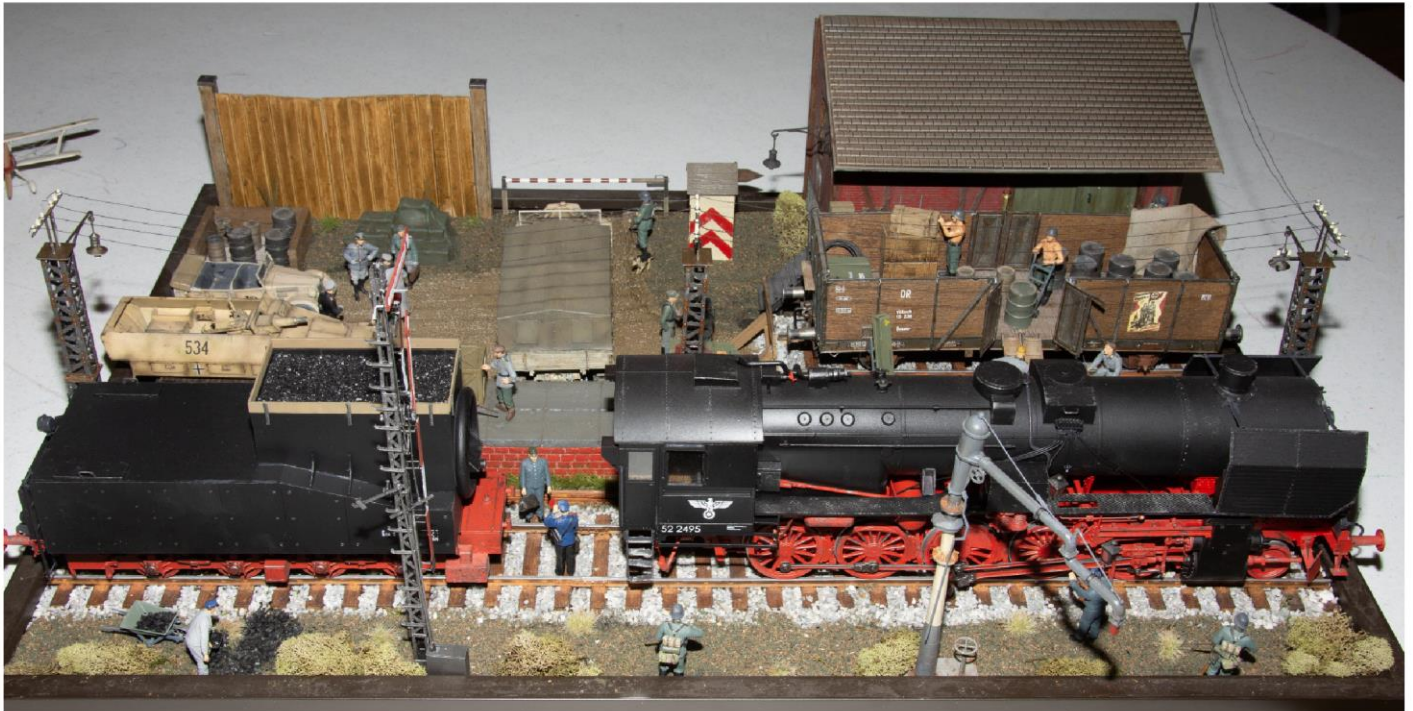

Mike MacDonald built this Cessna 172 from Lindberg. He made the paint scheme to match a friend's plane.

He also built this Harrier from Tamiya. He made decals for both models.

# BOB CARNEY

Bob has again put together a very comprehensive diorama anchored with a large locomotive.

Henry West brought in these troopers. If they seem blurry, its my fault.

Dave Reardon brought back this German 88 and a Humvee. This time they're both finished.

Mike Woods brought in this '57 Chevy in 25th scale and a Japanese Chi Ha tank in teensy-weensy scale.

Ron Oro built this 72nd scale Zero from Hasegawa.

Ray Crean again brought some of his lovely models from years gone by. The top one is a Heinkel 51 and the bottom one is a P-6E. Both are in 1/48th scale.

Bob Wilson built this "Alien" from MPC's Space 1999 series. This vehicle was never in Space 1999. It's an old kit from George Barris called Moonscope.

**Shinzoku Ranger**

Bob also kitbashed this famous ranger.
